Reference for Ms. Kerstin Martens

### To whom it may concern

This letter is a reference for Ms. Kerstin Martens.

I have known Kerstin since May 2004. Messrs Resopal decided to hire a photographer for the documentation of the growth of hemp. For a new product development, the basis of which forms the hemp plant (grown by farmers for industrial use). The photographs were subsequently used for our 2005 company brochure as well as the special product brochure when launching this new product.

We hired Kerstin as a freelance photographer to take the required photographs on a regular basis during the season 2004 to cover all relevant stages from sowing to harvesting. Her role included communication with the farmers and agricultural contractors and passing any relevant information on to myself to discuss further steps.

During this time Kerstin proved to be very professional, reliable, well-organised and committed. She was always adaptable to the situation, working weekends and week days – whenever it was necessary and weather permitting - to achieve the goal.

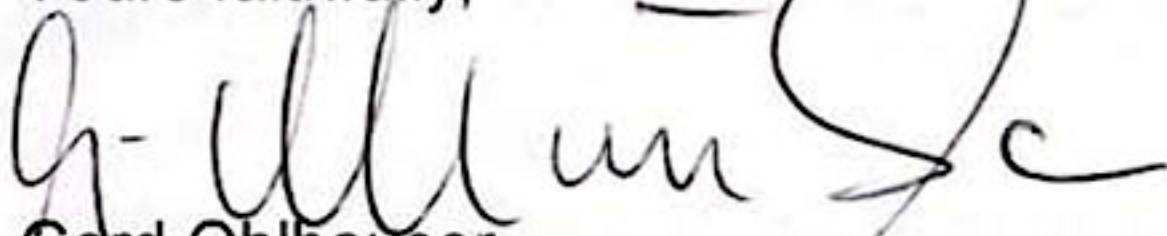

Kerstin has excellent communication and artistic skills and was able to understand and convert our general artistic ideas into high quality photographs.

In summary, I highly recommend Kerstin for any position or endeavor that she may seek to pursue. She will be a valuable asset for any organisation.

If you have any questions, please do not hesitate to contact myself on the number below:
